

Finish White™

Waterproofing Basement Walls

Thinking about finishing your basement? Finish and waterproofing your walls in one easy step.

The Finish White® panel system makes your basement look like a finished room, and waterproofs at the same time. The huge expense of complete remodeling is eliminated. Now you can add a significant amount of living area to your home for a fraction of the cost.

Waterproofing Basement Walls

Thinking about finishing your basement? Finish and waterproofing your walls in one easy step.

The Finish White® panel system makes your basement look like a finished room, and waterproofs at the same time. The huge expense of complete remodeling is eliminated. Now you can add a significant amount of living area to your home for a fraction of the cost.

Basement Technologies' Finish White® is the perfect finishing touch to your newly dry basement. It keeps your basement walls dry and beautiful. Washable, attractive, permanent and very cost effective - Finish White® is the only choice for basement walls.

Finish White® attaches directly to your poured concrete or block foundation walls and is best used in conjunction with a full perimeter Water Trek Aqua Route® system.
